DOMINATE

THE BATTLE

SHOP SHIELDS

ALFA

5:30 AM

LISTEN

e It

first prototype

decided to go with wood as  
the base so that i can  
design the shields with a  
laser instead of vinyl  
stickers

New designs using MDF  
Wood as base with laser  
engraver and cutter  
instead of only using  
2mm aluminum metal.  
This is the final version of  
the product
